

WEDNESDAY 25<sup>th</sup>

13:30-14:30	<b>Satellite Event 1</b>	European Research Council- funding opportunities
14:30-16:10	<b>Satellite Event 2</b>	OpenSesame Workshop
16:10-17:50	<b>Satellite Event 3</b>	Women in Cognitive Science
17:50-19:30	<b>Satellite Event 4</b>	Wolfgang Köhler in Tenerife (1913-1920): A tribute to a pioneer in cognitive psychology
19:30-20:30	Opening reception - Welcome Cocktail	Mediterranean Palace Hotel

THURSDAY 26<sup>th</sup>

9:00-10:00	<b>KEYNOTE 1</b>	Kia Nobre: REMEMBERING WITH THE BENEFIT OF FORESIGHT								
10:00-10:30	COFFEE	Espejos Hall								
10:00-11:30	<b>POSTER SESSION 1</b>									
11:30-13:10	<b>SYMPOSIUM SESSION 1</b>	Temporal Attention	EWOMS Symposium. Working Memory: Too Many Theories?	Does Core Cognition Structure Human Language?	Time for Embodiment. New Evidence for the Time Course of Bodily Reference in Cognition	Acting in a Complex World. Emerging Perspectives on Human Agency	Integrated and Flexible Spatial Representations: Who Makes Them (When and How), and Why They Are Important	Auditory Cortical Entrainment in Relation with Language Processing	Development and Plasticity of Executive Functions	
13:10-14:40	LUNCH	Cleopatra Hotel								
14:40-17:20	<b>ORAL SESSION 1</b>	Neuroscience of Language	Perception	Language Processing I	Emotion	Multitasking	Action	Attention	Spatial Processing	Problem Solving
17:20-17:40	COFFEE	Coffee Break sponsored by Springer								
17:40-20:00	<b>ORAL SESSION 2</b>	Working Memory	Cognitive Control	Neural Plasticity	Bilingualism	Language Development	Sociality	Arithmetics I	Time Processing	

FRIDAY 27<sup>th</sup>

9:00-10:00	<b>KEYNOTE 2</b>	Gabriella Vigliocco: ECOLOGICAL LANGUAGE: A MULTIMODAL APPROACH TO THE STUDY OF LANGUAGE LEARNING AND PROCESSING								
10:00-10:30	COFFEE	Espejos Hall								
10:00-11:30	<b>POSTER SESSION 2</b>									
11:30-13:10	<b>SYMPOSIUM SESSION 2</b>	Multimodality in Language Learning and Processing	10 Years European Summer School on Computational Modelling of Cognition	From Monkey to Man — 100 Years of Problem Solving Research Since Wolfgang Köhler	Peripersonal Space Representation in Individual and Social Contexts	The Psychology of Human Habits	The Multifaceted Manifestations of Autobiographical Memory: From Severely Deficient to Highly Superior Performance, Passing Through Normal Functioning	On the Interplay Between Orthographic and Motor Processes During Word Writing	Emotional Conflict - Cognitive Conflict	
13:10-14:40	LUNCH	Cleopatra Hotel								

14:40-15:40	<b>KEYNOTE 3</b>	Senne Braem: WHAT CONTROLS COGNITIVE CONTROL?							
15:40-17:20	<b>SYMPOSIUM SESSION 3</b>	Recent Advances in Cognitive Control Research	Language Learning as a Byproduct of Communication	Numerosity Perception	Beyond this Reality: VR as a Paradigm for Interactive and Embodied Social Cognition	Spontaneity in Future Thinking: A Forward-Looking Research Symposium	Is Memory Slave to the Rhythm? Focus on the Role of Timing and Temporal Factors in Verbal Short-Term Memory	Negation Processing: New Insights and Models	New Findings and Approaches on Strategic Variations in Human Cognition
17:20-17:50	<i>COFFEE</i>	<i>Espejos Hall</i>							
17:20-18:50	<b>POSTER SESSION 3</b>								
19:00-20:00	<i>ESCOP BUSINESS MEETING</i>	<i>Cibeles Room</i>							
20:30-22:30	<i>CONFERENCE DINNER *</i>	<i>Cleopatra Hotel</i>							

## SATURDAY 28<sup>th</sup>

9:00-10:00	<b>KEYNOTE 4</b>	Manuel Carreiras: TWO LANGUAGES IN ONE BRAIN							
10:00-11:40	<b>SYMPOSIUM SESSION 4</b>	Bilingualism, Development and the Brain: A Neuroemergentist Perspective	Motivation for Effort: Physiology, Behaviour and Neural Computations of How Humans Face Cognitive and Physical Challenges	The Role of Reasoning in Moral Decision Making	Exploring Cognition Using New Technological Advances Such as Embodied Artificial Agents	Current Topics in Music Cognition: Perceiving Time and Structure	Don't Forget to Take Your Medication when Cooking Dinner: How Are Working Memory and Prospective Memory Related?	Experimental Approaches to Reading Acquisition	The Origins and Consequences of Monitoring Processes in Human Action Control
11:40-13:10	<b>POSTER SESSION 4</b>	<i>Espejos Hall</i>							
12:00-13:00	<i>BRUNCH</i>								
13:10-14:30	<b>ORAL SESSION 3</b>	Robots	Face Processing	Language Processing II	Emotion and Attention	Memory	Visual Attention	Dyslexia	Arithmetics II
14:30-16:10	<b>SYMPOSIUM SESSION 5</b>	Theories and Models of Human Intelligence: Recent Developments	Probing the Mind with Magic	Communication Systems Across Species: How Research on Animals Inspires Research on Humans	Where Next? The Future of Embodiment Research	Public Acceptance and Rejection of Science in a 'Post-Truth' World	Spatial Learning and Navigation from the Individual Differences Perspective	Auditory Comprehension under Adverse Listening Conditions	Exploring Decision-Making through Computational Modeling
16:10-17:00	<i>CLOSING CEREMONY</i>	<i>Auditorio</i>							
17:00-20:00	<i>Visit to the Teide National Park **</i>								

\* Only included in Full Fees

\*\* Not included in the Basic and Full Registration Fees
